# Programme Advantages

## 課程優勢

The Bachelor of Arts (Honours) in Psychology (BA-PSY) Programme adopts the unique “Liberal + Professional” education model to equip students with comprehensive foundational knowledge and skills in psychology. “Liberal” means that the Programme adopts a broad-based and cross-disciplinary approach to connect knowledge domains, facilitate thinking, and solve problems. “Professional” means that while the Programme is broad-based and cross-disciplinary, it also has professional orientation elements which aim at equipping students with the competencies to enter into relevant professions in the future.

心理學 (榮譽) 文學士 (BA-PSY) 採用獨特的「博雅 + 專業」教育模式，教授學生全面的心理學基礎知識和實用技能。「博雅」是指本課程以廣泛及跨學科的方式來連接不同知識領域、啟發思考和解決問題。「專業」是指本課程雖然廣泛而跨學科，但亦包含專業導向元素，以助學生獲得特定行業所需的專業知識和技能，為未來就業做好準備。

A distinctive feature of the Programme is that, in addition to covering and integrating all major areas in psychology and their cognate disciplines, it provides three specialisations, Educational and Clinical, Business and Technology, and Neuroscience and Health. These specialisations not only develop students' interests and capacities in psychology applications, but also enhance their employability and readiness for further professional training.

本課程的特色之一，在於除了均衡地涵蓋和整合各個主要心理學範疇及其相關學科之外，亦提供三個專修範疇供學生選讀，包括「教育和臨床」、「商業和科技」、以及「神經科學和健康」。這三個專修範疇不但能培養學生在心理學應用範疇的興趣和能力，更能幫助他們提升就業競爭力，並為專業深造做好準備。
