## Message from the Programme Director 課程主任的話

The BA-ACC programme is the first undergraduate programme in Hong Kong that combines communication, art, and culture elements into a 4-year programme. The BA-ACC Programme adopts a unique interdisciplinary approach called "communication+", which aims to cultivate communication talents in arts and culture with advanced communication technologies for the local, the Greater Bay Area, and the global context.

The programme's curriculum has been thoughtfully designed to provide students with a wide range of communication theories and skills (such as audio-visual production, digital animation for promotion, digital advertising and public relations), fundamental literacy of arts and culture (such as appreciation of art and culture, popular culture), as well as business knowledge, diverse general education and language learning.

The School of Communication will provide students with high-quality teaching staff, advanced teaching equipment, and various exchange and internship opportunities. Welcome to join us.
