Programme Features 課程特色

The programme adopts a bridge model that emphasises the interconnection among philosophy, politics, and economics. While training in philosophy nurtures students with critical and analytical reasoning and a humanistic concern about social and economic problems, training in politics and economics provides them with important conceptual and up-to-date awareness that helps understand and evaluate what happens around the world.

Students will take several interdisciplinary modules that address how a single public problem can be understood, analysed and solved from these three perspectives. We believe that the bridge model can equip students with open-mindedness and a comprehensive vision that better fit with the everchanging 21st century.

本課程採用的「橋樑模式」強調哲學、政治與經濟三個學科的聯繫。透過哲學訓練，培養學生的批判思維及對社會議題的人文關懷；透過政治及經濟學訓練，學生學會用專業的概念和理論知識分析世界大事，從而制定社會政策。

此外，透過一系列跨學科科目，讓學生同時運用哲學、政治與經濟的觀點去理解與分析公共問題，建立全面和靈活的跨學科視野。我們相信「橋樑」的教學模式是裝備同學應對瞬息萬變的廿一世紀的最佳法門。
